## TECHNICAL SKILLS

### Front-End :

React.js, Next.js, TailwindCSS, Bootstrap, Shadcn/ui.

### Back-End :

Node.js, Express.js, NestJS, RESTful APIs.

### Database :

MongoDB, Mongoose.

### Auth & Security:

JWT, Bcrypt, RBAC, NextAuth.

### Payments :

Stripe, PayPal.

### DevOps & Tools :

Docker, Git, GitHub, Vercel, Postman.

### Architecture & Other :

Socket.IO, SaaS Architecture, MVC Pattern, TypeScript.

## SOFT SKILLS

- Problem Solving
- Teamwork
- Communication
- Adaptability
- Time Management

## LANGUAGES

### Arabic

Native

### French

Intermediate

### English

Intermediate

## ADDITIONAL INFO

### Driving License:

Category B

## PROFESSIONAL PROFILE

Passionate Full Stack Developer with 2+ years of experience building secure, scalable web applications using the MERN stack, Next.js, and NestJS. Proven track record of delivering high-performance SaaS platforms, real-time systems, and e-commerce solutions. Committed to clean code, exceptional UX, and continuous learning.

## PROFESSIONAL EXPERIENCE

### Founder & Full Stack Developer (MERN)

Oct 2025 – Present

DGT Portfolio • Founder, Remote

- Built a Next.js SaaS platform for professional portfolios with PayPal payment integration and custom domain support.
- Engineered secure Node.js REST APIs with JWT/NextAuth authentication, Role-Based Access Control (RBAC), and robust data protection.
- Optimized performance & SEO via Server-Side Rendering (SSR), achieving high Core Web Vitals scores.
- Managed full-stack deployment on Vercel with CI/CD pipelines using Git & GitHub.

### Full Stack Developer Intern

Sep 2023 – Jun 2024

Cites des Metiers et des Competences • Internship, Laayoune

- Designed and developed responsive and interactive UIs, improving user engagement across multiple projects.
- Implemented RESTful back-end services and MongoDB database schemas for dynamic web applications.
- Applied Agile/Scrum methodology to improve team efficiency and delivery speed.
- Used Docker for environment management, SonarQube for code quality, and Git/GitHub for version control.

### Full Stack MERN Developer Intern

Mar 2024

Academie Regionale d'Education et de Formation • Laayoune

- Designed and delivered a full-stack task management application with JWT authentication.
- Tested API endpoints with Postman and deployed the application on Vercel.

### Digital Developer Intern

Nov 2022 – Jun 2023

Cites des Metiers et des Competences • Laayoune

- Acquired fundamentals of OOP, algorithms, and web development (static & dynamic sites).
- Worked with databases, JavaScript, and information system security principles.

## KEY PROJECTS

### Professional portfolio builder platform

[dgtportfolio.com](https://dgtportfolio.com)

Next.js · Node.js · Express · MongoDB · PayPal · Cloudinary

Platform for creating professional personal portfolios with ease. Features include multi-language support, custom domain integration, dynamic theme selection, real-time resume generation, and an admin dashboard for managing content, subscriptions, and analytics.

### Hotel Reservation System

[edhotel.vercel.app](https://edhotel.vercel.app)

Next.js · Node.js · MongoDB · Stripe · JWT · Cloudinary

Hotel booking system with online payment integration, implementing electronic ticket generation and email confirmations. Built an admin dashboard to manage reservations, payments, and customers, while securing APIs and user authentication using JWT.

### Secure Real-time Chat System

[edchatflow.vercel.app](https://edchatflow.vercel.app)

Next.js · Node.js · Socket.IO · MongoDB · JWT · Bcrypt

Real-time chat application with instant messaging support and end-to-end encryption to ensure message privacy. Implemented a secure authentication system along with user and conversation management, focusing on performance and an improved user experience.

### E-Commerce Back-End (NestJS)

[GitHub/AbdellahEdaoudi](https://github.com/AbdellahEdaoudi)

NestJS · TypeScript · MongoDB · Stripe · JWT · RBAC

Scalable e-commerce backend system with secure authentication and role-based access control (RBAC). Implemented core functionalities including user management, product catalog, shopping cart, order processing, and coupon system, with payment integration and a clean, maintainable API architecture.

## EDUCATION

### Diploma in Digital Development – Full Stack Web Option

2022 – 2024

Cites des Metiers et des Competences, Laayoune

### Bachelor's Degree – Physical Sciences

2021 – 2022

Baba Ahmed bin Muhammad Yahdih High School, Laayoune
