

ABDELLAH EDAOUDI

Full Stack Developer (MERN · Next.js · NestJS)

Location: Laayoune, Morocco | Phone: +212 609 085 357 | Email: abdellahedaoudi80@gmail.com

Portfolio: abdellah-edaoudi.vercel.app | GitHub: github.com/AbdellahEdaoudi | LinkedIn: [/in/abdellah-edaoudi](https://in/abdellah-edaoudi)

PROFESSIONAL SUMMARY

Full Stack Developer with +2 years of experience designing and building secure, scalable web applications using the MERN stack, Next.js, and NestJS. Track record of delivering production SaaS platforms, real-time systems, and e-commerce backends, with hands-on experience across authentication and authorization (JWT, RBAC, NextAuth), payment integration (Stripe, PayPal), and CI/CD deployment on Vercel. Founder of a live SaaS product (DGT Portfolio) used by real customers. Strong focus on clean code, performance optimization, and user experience.

TECHNICAL SKILLS

Front-End: React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, Bootstrap, Shadcn/ui

Back-End: Node.js, Express.js, NestJS, RESTful API, Socket.IO

Database: MongoDB (NoSQL)

Authentication & Security: JWT, NextAuth, Bcrypt, Role-Based Access Control (RBAC)

Payments: Stripe, PayPal

DevOps & Tools: Docker, Git, GitHub, Vercel, Postman, SonarQube, CI/CD

Architecture & Concepts: MVC Pattern, SaaS Applications, Microservices

PROFESSIONAL EXPERIENCE

Founder & Full Stack Developer (MERN) — DGT Portfolio

Oct 2025 – Present

Remote

- Built a Next.js SaaS platform for professional portfolios with PayPal payment integration and custom domain support.
- Engineered secure Node.js REST APIs with JWT/NextAuth authentication, Role-Based Access Control (RBAC), and robust data protection.
- Optimized performance and SEO using Server-Side Rendering (SSR), achieving high Core Web Vitals scores.
- Managed full-stack deployment on Vercel with CI/CD pipelines using Git and GitHub.

Full Stack Developer Intern — Cités des Métiers et des Compétences

Sep 2023 – Jun 2024

Laayoune, Morocco

- Designed and developed responsive, interactive user interfaces, improving user engagement across multiple projects.
- Implemented RESTful back-end services and MongoDB database schemas for dynamic web applications.
- Applied Agile/Scrum methodology to improve team efficiency and delivery speed.
- Used Docker for environment management, SonarQube for code quality analysis, and Git/GitHub for version control.

Full Stack MERN Developer Intern — Académie Régionale d'Éducation et de Formation

Mar 2024

Laayoune, Morocco

- Designed and delivered a full-stack task management application with JWT authentication.
- Tested API endpoints with Postman and deployed the application on Vercel.

Laayoune, Morocco

- Acquired fundamentals of object-oriented programming, algorithms, and web development (static and dynamic sites).
- Worked with databases and applied core information system security principles.

KEY PROJECTS

Professional Portfolio Builder Platform (SaaS)

dgtportfolio.com

Next.js · Node.js · Express · MongoDB · PayPal · Cloudinary

Platform for creating professional personal portfolios. Features include multi-language support, custom domain integration, dynamic theme selection, real-time resume generation, and an admin dashboard for managing content, subscriptions, and analytics.

Hotel Reservation System

edhotel.vercel.app

Next.js · Node.js · MongoDB · Stripe · JWT · Cloudinary

Hotel booking system with online payment integration, electronic ticket generation, and email confirmations. Built an admin dashboard to manage reservations, payments, and customers, with secured APIs and JWT-based authentication.

Secure Real-Time Chat System

edchatflow.vercel.app

Next.js · Node.js · Socket.IO · MongoDB · JWT · Bcrypt

Real-time chat application with instant messaging and end-to-end encryption for message privacy. Implemented secure authentication along with user and conversation management, with a focus on performance and UX.

E-Commerce Back-End (NestJS)

NestJS · TypeScript · MongoDB · Stripe · JWT · RBAC

Scalable e-commerce backend with secure authentication and role-based access control. Implemented user management, product catalog, shopping cart, order processing, and a coupon system, with payment integration and a clean, maintainable API architecture.

EDUCATION

Diploma in Digital Development — Full Stack Web Option

2022 – 2024

Cités des Métiers et des Compétences, Laayoune, Morocco

Bachelor's Degree — Physical Sciences

2021 – 2022

Baba Ahmed bin Muhammad Yahdih High School, Laayoune, Morocco

LANGUAGES

Arabic (Native) | French (Basic Working Proficiency) | English (Basic Working Proficiency)

SOFT SKILLS

Problem Solving, Teamwork, Communication, Adaptability, Time Management
